

New 2009 FAST[™] Product Catalog

Leading EFI technology developer ignites the aftermarket with new EFI product catalog

With 32 full color pages containing the latest aftermarket EFI technology, the new FAST[™] 2009 product catalog features a host of new products that redefine fuel injected horsepower and durability. This master reference guide is broken into sections covering application-specific electronic fuel injection systems, EFI components, intake manifolds, throttle bodies, air/fuel meters and even carburetor accessories.

In addition to product listings and descriptions, this highly informative EFI catalog also provides several resource sections, including answers to frequently asked questions and a glossary of common EFI terms. The educational content in the catalog is highly detailed to provide both novice and advanced EFI enthusiasts with comprehensive information on the latest in fuel injection technology.

For street car and racing enthusiasts that advocate the use of EFI systems and components, the latest FAST[™] product catalog is certainly a great place to see what is available in today's aftermarket. It is available in both a printed format and as a downloadable PDF on the FAST[™] website. For more information about the new FAST[™] product catalog or any FAST[™] product, call 1-877-334-8355, or visit us online at www.fuelairspark.com.
